

300 lbs Load Capacity

HEAVY DUTY ALUMINUM MOBILE PLATFORM LADDER

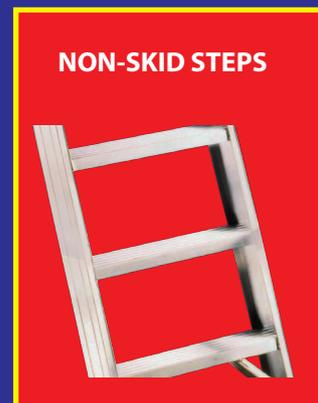

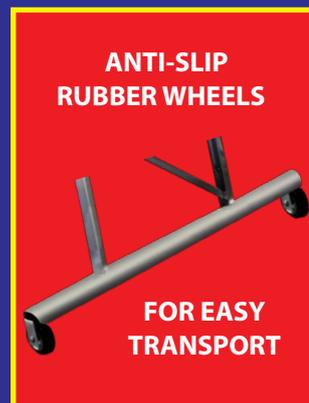

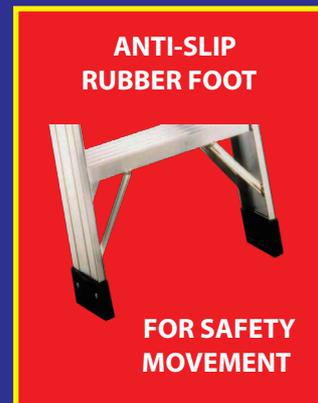

Welded ribbed aluminium folding ladder with platform, Guardrail and Handrail for professional use. This professional heavy duty alternative to traditional steel safety steps is ideally suited for use in warehouses, stock rooms, high access points with machinery, airports, gymnasiums and other areas where safe, guarded high level access is required.

Featuring wide steps, a sturdy 1.0m guardrail and a large aluminium working platform permit the user to work in a comfortable, safe way & this product therefore meets all needs for Work at Height.

Featuring a safe braking system deployed automatically when the ladder is opened for use, but allowing transit when the ladder is moved, the rubber feet allow the two sturdy rubber wheels (\varnothing 125 mm) to move effortlessly on the ground. It is additionally equipped with anti-opening/anti-closing locks. It is tested and produced according to the European Standard En131.
